

# ENGINEERED PROCUREMENT

We solve your procurement problems and allow you to reduce downtime, keeping your assets operating efficiently

## WHAT WE DO

Support new and ageing/obsolete systems. Our engineered procurement service can solve your component availability and lead time challenges, minimising system downtime and improve operational efficiency.

### SPECIALIST IN AGEING/ OBSOLETE

We have the capability to support new, aging and obsolete/ legacy systems

### COMPREHENSIVE ENGINEERING PROCUREMENT SERVICE

Component identification and specification extraction.  
Identification of suitable vendor and order processing.  
Sourcing of new/old stock.  
Specification and sourcing of direct equivalents.  
MOC support aligned with your internal processes.

### INDEPENDENT

With no exclusive relationships with suppliers, we are unbiased and free to select the best solution to meet your needs.

### SPEED/EXPEDITE

Our knowledgeable and experienced Engineers provide rapid turnaround.

We hold a large stock of components at our local facility less than 30 minutes from Aberdeen Airport for immediate response.

Rapid courier services to collect and deliver anywhere in the world.

Reduced need for MOC, providing solutions with the same form, fit and function as the original.

Offshore service support and mobilisation at short notice to meet requirements.
