

MAINTENANCE & RELIABILITY

Helping the Energy Industry to deliver effective maintenance and improve plant reliability

WHAT WE DO

We provide a comprehensive range of maintenance & reliability services to support the full lifecycle of your asset.

MEASURE

System Auditing

PLAN

Philosophy & Strategy
Development

Maintenance Setup -

- PMRs and Job Plans
- Schedule Optimisation

MAINTAIN

Inspection & Maintenance
Maintenance Excellence
Programmes including -

- Alignment & Balancing,
Lubrication
- Condition Monitoring

UNDERSTAND

Reliability & Failure Analysis

- RAM Studies
- Criticality Analysis
- FMEA/FMECA
- RCM
- Level of repair analysis
- RCA & Failure
Investigation

OPTIMISE

- Production Loss Analysis
- Machine Performance Analysis
& Modelling
- Choke Modelling
- Software Analysis & Reporting
Tools
- Critical Spares Analysis
- Preservation Identification
- CMMS System Builds
- Equipment & Hardware Supply
- Training

COMPLIMENTARY SERVICES

Condition & Performance Monitoring; Inspection, Test & Repair;
Training; Equipment Hire
